Pardo Yachts brand was born in 2016 by Cantiere del Pardo after over 40 years of experience in boat building. The immediate success of this new walkaround market leader brand allows to invest in new innovations and technology, to develop new models and to improve the customer care. The Pardo Yachts models have been designed for a sophisticated owner who appreciates high quality, design, luxurious comfort, and much more. Thanks to careful studies of its hull shape and engineering, the Pardo Yachts boats are noted for outstanding performance and speed. Each Pardo Yachts is already a true icon in the yachting world.

Pardo 38

The new Pardo 38 will make its official debut to the public during the Cannes Yachting Festival 2019. Synonym for power, elegance, quality, and comfort, with endless customization possibilities, this new hull will be available with sterndrive as well as outboard propulsion system with a maximum power of 1090 hp that will allow this powerful walk-around yacht to reach speeds up to 50kts. Its bright and spacious interior volume, generous heights and excellent natural ventilation, allows the Pardo 38 to reach the perfect space distribution for a 38-footer. The great attention to detail and quality makes this boat true excellence of the Made in Italy.

Pardo 43

Performance and speed distinguish the Pardo 43 thanks to a careful study of hull shape and engineering. Her V hull, with an angle of 16° in stern and 50° in bow, ensures the sea keeping, smooth manoeuvres and a fast planning. Vinyl resin infused hull as a monolithic with the keel, side and deck are made in high density PVC sandwich for greater structural, rigidity, thermal and acoustic insulation. The interiors, thanks to the large hull volume and perfect heights are inviting, comfortable and spacey, with many storage areas, big closets, fresh air and natural light.

Pardo 50

The Pardo 50 is a perfect compromise between performance and comfort. This boat is perfect for those who love spending time with their family and guests on board as well as those who want to relax in a less crowded atmosphere. One of the main characteristics of the deck is the truly comfortable walk-around, developed on a unique surface, from bow to stern. The high freeboard provides greater safety when having children or guests on board. The interior plan is unique; you can find a wide-open space with two cabins and two heads. There is also the possibility to install a skipper cabin/third cabin, which is the main feature of this model. The interiors, with great heights, are the core of the shipyard's DNA: a timeless elegance tailor made by the hands of expert artisans.

Pardo 28	
LDA	11,80 ft / 36' ft
Beam	2,80 mt / 11'2" ft
Displacement	7 ton approx / 15 400 lb approx.
Engine type	Volvo P8-200HP gasoline (std) Volvo D4-200HP x 2 diesel (opt) Volvo D6-200HP x 2 diesel (opt) Volvo D8-440HP x 2 diesel (opt) Mercury Verado300HP x 2 (opt) Mercury Verado600HP x 2 (opt)
